

Call for papers in special issue
Indexing in Scopus, WoS
IT, Instrumentation and Materials

Dear colleagues!

You can publish your scientific papers and participate in the International conference on «***High-tech and Innovations in Research and Manufacturing (HIRM-2019)***». The conference is hosted by ***AeroSpace school (Krasnoyarsk, Russia)*** with organizational support of ***Ortum-publish.ru***.

International conference HIRM-2019

The conference is dedicated to the discussion of modern scientific and technological aspects of **knowledge-based industry** such as **new materials production, instrumentation design, system engineering and quality assurance**.

All registered papers from HIRM-2019 would be accepted for publication in **Journal of Physics** covered by **Scopus** and **Web of Science**. Virtual presentation is **available as option**.

Scope of the event

1. Physical basis of instrumentation
2. Electronic engineering, processors and telecommunication
3. Mechatronics, electromechanics, and industrial facilities
4. Novel materials synthesis and characterization
5. Methods and apparatus for nondestructive testing
6. Industrial automation tools and systems
7. Algorithms, and measurement assurance for measuring systems
8. Simulation analysis in industrial production planning

Publishing Information

Source title: Journal of Physics: Conference Series

Indexing: Scopus, WoS Core Collection

Publisher: IoP Publishing (the UK)

Deadline: 15 May

Manuscript submission: HIRM@ortum-publish.ru

Webpage: <http://sib-publish.ru/?tech12&en>
